

Kwik-ShotTM TIMBER & METAL Polycarbonate Fixings

Kwik-ShotTM Polycarbonate Fixings are specifically designed for fixing Polycarbonate Roofing sheets, creating a round, perfectly sized hole on the corrugation crests without fail, allowing for thermal expansion and contraction, and is then weather-sealed by the EPDM dome washer during the process to resist water and dust ingress.

Professional Finish

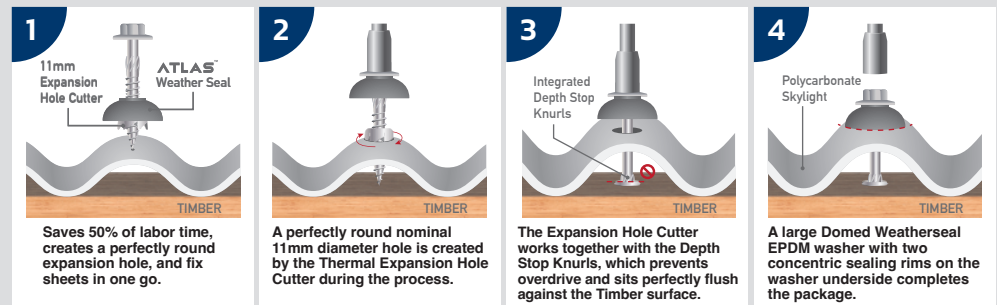

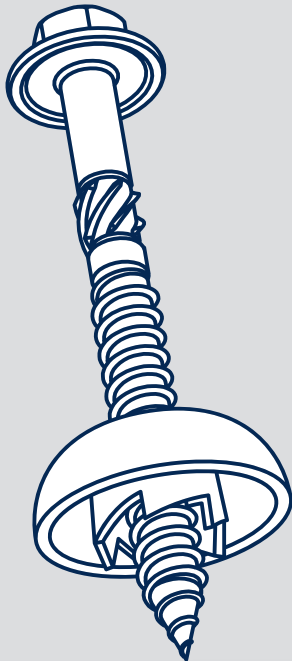

- Coated to AS3566 Class 4 Standards.
- Weathering Resistant & Leakage Proof Design.
- Creates a perfectly round 11mm Thermal Expansion Hole and Fix sheets in one go.
- Fail-safe design for both beginners and professionals.

Easy Installation

- No more pre-drilling means faster and easier installation.
- No extra expense of specialist tools.
- No extra effort changing tools.
- Saves 50% of Labor Time.
